

2017 PARTNER PROGRAM

"Life leaps like a geyser for those who drill through the rock of inertia." -Alexis Carrel

Over the decades, ASIC has effectively made its presence known in the Landscape and Golf Green Industries while expanding our presence in federal, state and local water issues. We're not just proponents of Irrigation Consultants, but in the value and business of performance irrigation.

ASIC has benefited from a close working relationship with its members who are also committed to the success of our organization. We understand that by working together, we can continue the advocacy of science and evidence based water management solutions for the green industry. Applying the best design practices in conjunction with the most current technology is the best defense against future unnecessary restrictions on landscape irrigation.

The ASIC Partner Program offers a way for our members to provide support to further advance our goals and mission. In recognition of your support, you will maintain high visibility throughout the year with all our Professional Members and within the irrigation industry. As an ASIC Partner, you will be fully acknowledged on the website, and at the National Conference. Courtesy registration at the National Conference plus acknowledgement as a Conference Sponsor provides additional value for your support dollars.

We hope you will consider becoming an ASIC Partner.

ASIC understands and conducts the business of irrigation on its largest scale. ASIC Partner status is a strong statement that we share in the mission of advancing the business of irrigation. For more information on the ASIC Partner program, contact Carol Colein at carolc@asic.org or (508) 763-8140
