Remote Monitoring

- Multiple Color Selection
- Power Coat Finish
- Insulation Options

### OPTIONAL

**FLOWNET**™  
FACTORY AUTHORIZED GLOBAL SERVICE NETWORK

**6** Complete Control Panel  
YEAR Warranty  
*includes lightning damage*

# MCI Acquires FLOWTRONEX And WET (Water Equipment Technologies)

*MCI*, a leader in the design and manufacturing of industrial control products, electrical enclosures, turf and municipal pump stations, announced that it has acquired the FLOWTRONEX and Water Equipment Technologies (WET) product brands from XYLEM, INC., formally part of ITT Industries. The Flowtronex and WET brands have been serving golf, landscape, agriculture, and water treatment packages worldwide for over 40 years.

“The **FLOWTRONEX/WET** team is world class, and shares the same passions as *MCI*—creating the most technologically advanced products for our customers and the industries we serve,” stated James Carter CEO of MCI. By combining the two companies, *MCI* strengthens their industry strategy to bolster domestic markets and expand international market by taking advantage of **FLOWTRONEX/WET’s** past 40 years of development. The **FLOWTRONEX** and **WET** Brands will benefit from the additional products, capabilities, and technologies developed and manufactured by *MCI* over its 37 year history. This is a terrific synergy and strengthens the market.
